LIGHT SCHOOL – THE HOME OF ARCHITECTURAL LIGHTING

To bring out the best in surfaces they need good lighting! That's exactly where Light School has such an important role to play.

Light School is all about education and in our 'academy' it is the lighting suppliers and the lighting designers who are the educators whilst architects and interior designers are there to learn and digest just why lighting is so important to their projects.

Light School focuses upon the quality of light and how it interacts with different surfaces.

An important aspect to Light School will be Light Talks – our programme of presentations and discussions aimed at bringing suppliers and lighting designers face to face with a 'class' of architects and interior designers thirsting for greater knowledge.

Light School runs as part of the highly successful Surface Design Show which attracts some 5,000 visitors to London's Business Design Centre every February.

“iGuzzini has decided to exhibit at Light School 2022, as we feel that it’s a great platform to get physically back in front of key specifiers after such a lengthy break. This show draws a great diverse spread of specifiers from architects to interior designers and lighting designers”

Ian Stanton, Sales and Marketing Director, **iGuzzini**

EXHIBIT WITH US AT LIGHT TALKS AND BENEFIT FROM:

**LIGHT
SCHOOL**

BUSINESS DESIGN CENTRE
LONDON – 8-10 FEB 2022

light-school.co.uk

A pre-built stand to include walling, carpet, electrics and nameboard

An opportunity to provide a masterclass to architects and interior designers on a project incorporating your lighting

Exposure to some **5,000** architects and interior designers

The synergy between architecture, interior design and lighting design is crucial and there has never been a better moment for your company to demonstrate, explain and discuss with architects and designers the importance of good lighting.

Let's have a chat...and we can explain how exhibiting at Light School 2022 at Surface Design Show can drive your company's sales.
