

Surface Design Show 2022

Surface Spotlight Live Preview:

Sense of Place

Putting humanity and the planet's
wellbeing at the heart of all decision making.

**Sally
Angharad**

www.sallyangharad.com

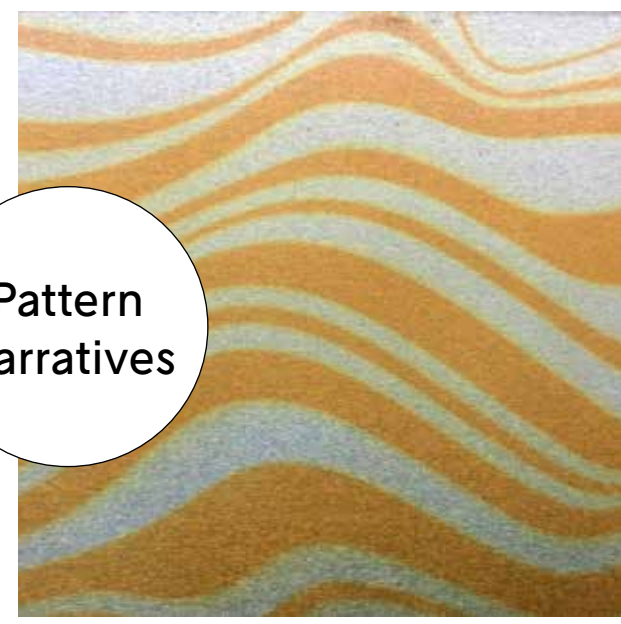

Our war against waste continues as surfaces encourage a more circular economy by reimagining leftover ingredients for new aesthetics.

Pattern
Narratives

Thoughtful craft techniques bring the power of pattern to materials; motifs and shapes capture our attention and resonate with our love of storytelling.

Glow
On

Recycled materials are layered or mixed to create translucent surfaces, welcoming the interaction of light to enhance the details inside.

Enriched
by
Nature

Biodegradable ingredients and natural pigments create wholesome and meaningful textures to enhance our manmade environments.
